- 4) Exchange of experience and expertise
- 5) Reliable geodetic reference frame in the region
- 6) Geospatial information infrastructure
- 7) Common principles, policies, standards
- 8) Inter-regional cooperation

The background of the slide is a blurred photograph of an urban street. On the right, a multi-story brick building with several windows is visible. In the center, a utility pole with power lines stretches vertically. To the left, there are more buildings and trees, though they are out of focus. The overall scene is brightly lit, suggesting daytime.
